

Workplace in the Cloud

Workplace as a Service (WPaaS)

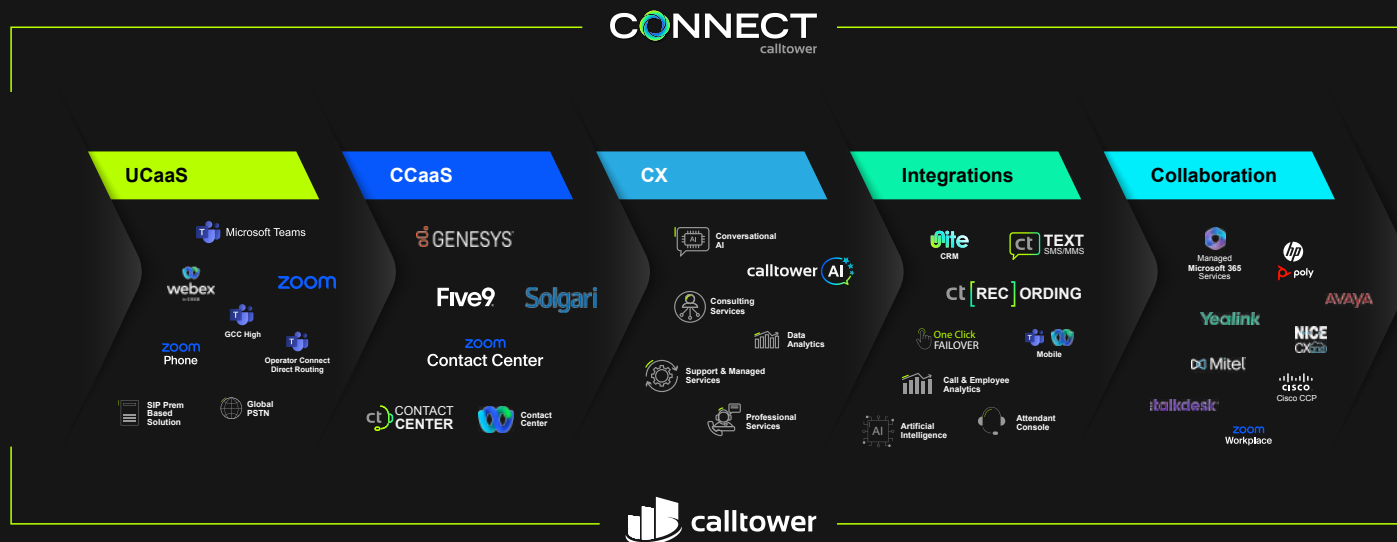

Imagine having your entire office right in the cloud - that's what Workplace as a Service (WPaaS) is all about! It's like having a superpower that combines global voice capabilities with essential business integrations. This dynamic duo forms a modern, unified communications, contact center and collaboration solution of enterprise-grade quality.

WPaaS is not just about empowering organizations but also about injecting a dose of happiness into their workforce by ensuring productivity. It's like an information superhighway that connects teams, projects, and time zones, giving team members the super flexibility to stay connected from any corner of the world.

WPaaS is part of an exciting shift towards cloud-based services. The goal? To bring to life an adaptable enterprise cloud services offering that's secure, affordable, and streamlined. The grand vision of WPaaS is to revolutionize the enterprise landscape, especially enterprise IT. It's about managing not just physical spaces but also user experiences.

Imagine a world where dissatisfaction is predicted and prevented before it even happens, taking workplace management to an entirely new stratosphere. Now, that's what we call a workplace transformation!

Whether you're looking to optimize your existing communication systems or overhaul your workflow entirely, CallTower has the tools to amplify the way teams work.

UCaaS & PBX Solutions | Microsoft Solutions

CallTower's hosted Microsoft services offer dynamic and adaptable communication solutions that scales to meet the evolving demands of today's expanding businesses. The synergy created by merging Office 365 with Microsoft Teams consolidates your team's communication within a single unified solution.

As a trusted Microsoft Solutions Partner, CallTower provides vigilant monitoring, proficient management, and unwavering support services to guarantee an unmatched user experience

Global Coverage

CallTower combines the power of global voice enablement and key business integrations, empowering organizations worldwide with the most advanced unified communication and collaboration solutions.

Connect with anyone, anywhere, inside or outside your organization, from a single, dedicated geographic number. Empowered by 15 geo-redundant data centers CallTower delivers connectivity to more than 6,000 cities and 85 countries.

Operator Connect for Microsoft Teams

Operator Connect for Microsoft Teams delivers PSTN access to Microsoft Teams users, designed to enhance customer experiences by simplifying the setup and management of CallTower services.

- **Leverage existing contracts or find a new operator**

You keep your preferred operator and contracts or choose a new one from a selection of participating operations to meet your business needs

- **Faster, easier deployment**

You can quickly connect to your operator and assign phone numbers to users - all from the Teams Admin Center.

- **Enhanced support and reliability**

Operators provide technical support and shared service level agreements to improve support service, while direct peering powered by Azure creates a one-to-one network connection for enhanced reliability,

- **Operator-managed infrastructure**

Your operator manages the PSTN calling services and Session Border Controlling (SBCs), allowing you to save on hardware purchase and management,

Microsoft Teams Direct Routing

Direct Routing allows customers to bring their current voice services into the Microsoft Cloud. The Microsoft Teams Phone System powered by CallTower enables this seamless integration, offering users the ability to maintain their existing voice infrastructure while benefiting from the advanced communication features of Microsoft Teams.

Stay Connected

Chat, text, calls and meetings within your team, in private or small group conversations
+ guest access to extend collaboration

Seamless Porting

Port between any PBX to CallTower's
Teams Direct Routing

Integrated Apps

Expose your team to all applications that are part of the Microsoft 365 software stack from within Teams

Change Management

Guidance with deployment, resource planning, technical readiness, live training and adoption to ensure success.

Microsoft Teams Direct Routing for GCC High

CallTower is the only voice provider delivering cloud-based Direct Routing in GCC High to support Microsoft 365 GCC High (MSFT 365 GCCH) for government contractors that work with the Department of Defense.

- Cisco Distinguished Certified Calling Providers for Webex
- CCDP / CCNP
- Cloud Connect for Webex Calling (Americas, EMEA and APAC)
- Cisco Webex Calling (SP)
- Cisco Webex Contact Center (SP)
- Cisco UCM Cloud - Connected PSTN
- Cisco SIP Trunking for Legacy Systems

Zoom Solutions

CallTower's Cisco solutions provide the ultimate unified communications capability for all businesses, no matter how small or large. It delivers a seamless user experience with high-quality, scalable web and video capabilities. CallTower's Cisco offerings are easy-to-use business communication technology tools that support mobility, messaging, conferencing and presence management.

CallTower's Zoom Phone empowers companies to keep their teams connected, productive, and happy by enabling seamless information flow across departments. These comprehensive Zoom services offered by CallTower are designed to revolutionize the way organizations communicate and collaborate, delivering enhanced productivity and convenience.

Zoom One combines video meetings, voice calls, and messaging into one easy-to-use platform

Benefits of Using Zoom One

Increased Productivity Through
Seamless Collaboration

Improved Communication Through
Messaging and Video Conferencing

Cost Savings Through Consolidation
of Tools and Resources

Zoom Calling

Zoom Calling's cloud phone solution allows you to make and receive calls from anywhere, using any device. Its easy-to-use interface and advanced features make it a great option for businesses of all sizes

Zoom Phone

Zoom Phone goes beyond traditional cloud PBX systems by providing a full-featured unified communications platform that integrates with other Zoom products and services. Its advanced features, along with its flexible and scalable pricing model, make Zoom Phone the perfect fit for organizations of any size.

zoom Contact Center

Zoom Contact Center Integration

Zoom Contact Center's cloud-based solution provides a single platform for routing, queuing, and reporting on customer interactions across multiple channels, including voice, chat, email, and social media. Zoom Contact Center makes it easy for agents to handle customer interactions through a unified interface. With advanced analytics and management tools, Zoom Contact Center provides businesses of all sizes with the ability to deliver better customer experiences and insights

1

Call Delegation

Assign certain numbers or extensions to other team members for call handing.

3

Call Conferencing

Host conference calls with up to 1000 participants for easy collaboration and communication.

2

Interactive Voice Response (IVR) System

Automatically route calls to the right department or team member using pre-recorded messages.

4

Mobile App

Use the Zoom Phone app to stay connected and productive on the go.

Zoom Technical Requirement and Integration Options

Technical Requirements

Zoom One: a computer or mobile device with internet access

Zoom Calling: a calling plan and compatible phone or computer

Zoom Phone: a calling plan, compatible phone, and internet access

Zoom Contact Center: integration with Zoom Phone or a compatible phone system

Integration Options

Zoom integrates with many popular business productivity and collaboration tools, including:

Choosing the Right Zoom Solution for Your Business

Zoom One

A great option for businesses of all sizes that need a seamless and complete solution for communication and collaboration.

Zoom Phone

Perfect for businesses that need a cloud-based phone system that is easy to manage and scale.

Zoom Contact Center

A great choice for businesses that want to streamline their contact center operations and provide better customer experiences.

CT Cloud Solutions

Managing communications and increasing productivity in today's dynamic, distributed, mobile economy can find itself to be challenging. With CT Cloud solutions, network operators can support customers of any size to meet these challenges by quickly and reliably delivering feature-rich, high-quality, and secure business communications solutions.

CT Cloud SIP

CT Cloud SIP Trunks provide one concurrent call and includes inbound usage. With features such as 911, directory listing and caller name. Our SIP DID Packages combine the most popular SIP features and provide concurrent calls equal to twice the number of DIDs.

CT Cloud Unite

The integration of Microsoft Teams with CallTower's phone system allows businesses to bring their current voice services into the Microsoft Cloud via Teams Direct Routing. This powerful combination offers a comprehensive communication solution, enabling efficient handling of customer interactions and improving first contact resolution.

CT Cloud Voice

CT Cloud Voice is a powerful UC application that enables carriers to extend their business telephony services directly to an end user's laptop, desktop or portable device or handset. These endpoints present the actual calling features, dial plans and outgoing caller ID of the twinned office phone. Ideal for remote workers and mobile workers who are increasingly bringing their own devices (BYOD)

The Features

- HD Voice and Video Calling
- SMS texting with file sharing and presence
- Powerful pre-call and in-call control features
- Identical calling features and caller ID on all devices
- Applications for Windows, MacOS, iOS and Android
- Unique network management tools and analytics

CT Cloud Boost

With CT Cloud Boost Access Network, VoIP calls, virtual desktop sessions, credit card payments, and all other applications gain the benefits of our Same-IP Failover and Dynamic QoS. This means calls stay clear, virtual desktop is snappy, credit card payments are quick, and no sessions drop.

CT Cloud Boost will improve overall performance and utilization for thousands of cloud-based applications, including:

Contact Center Solutions

Five9

Five9 Blended Cloud Contact Center

The Five9 UC Integration with Teams enables Agent-Expert Consultation by connecting Five9 agents with Teams users throughout the organization. Contact center agents can easily identify the right knowledge workers and subject matter experts using a Five9-Teams consolidated directory on their desktop.

Solgari

Solgari Integration

CallTower's partnership with Solgari delivers in-application contact center and communication capabilities within Microsoft Teams. With this integration, businesses can leverage advanced features like call recording, IVR, and advanced call handling, transforming Microsoft Teams into a robust platform for customer service operations.

Webex Contact Center

Webex Contact Center is an omnichannel contact center-as-a-service (CCaaS) that delivers enriched customer journeys, all powered by the cloud and data intelligence, driving faster and more personalized customer experiences.

Built on the open and flexible Webex Platform for Contact Center, our portfolio integrates advanced cloud services such as AI capabilities, enterprise-grade cloud calling, data analytics, workforce optimization, CRM and experience management applications.

CT Cloud Contact Center

The CT Cloud Contact Center solution is designed to improve contact center operations by reducing IT reliance, streamlining workflow processes, simplifying training, and affecting better decisions through robust analytics.

A revolutionary tool enabling users to easily personalize and control their CallTower services

CallTower enables customers to manage rapidly changing technologies through CallTower Connect – a user-friendly portal, created and developed in-house. This proprietary system ensures our customers can administer services without expertise in any one technology or hiring outside consultants to manage their UCaaS platforms.

CallTower Connect is built from the ground up for speed and ease of use. The application is launched from a web browser by an end user or company administrator to add or manage CallTower hosted Microsoft Teams, Skype for Business, Cisco HCS, CT Cloud Voice, CT Cloud SIP, Email and Conferencing solutions. CallTower Connect places powerful communication tools within an easy-to-use application. A few clicks are all it takes to customize many phone features.

Reduce Administrative Workload

The workload of corporate administrators will decrease as users gain access to a simplified panel where quick changes such as call forwarding, password management, Microsoft Teams conference PIN changes, speed dial button assignments and personalizing voicemail profiles can be made without a call to support.

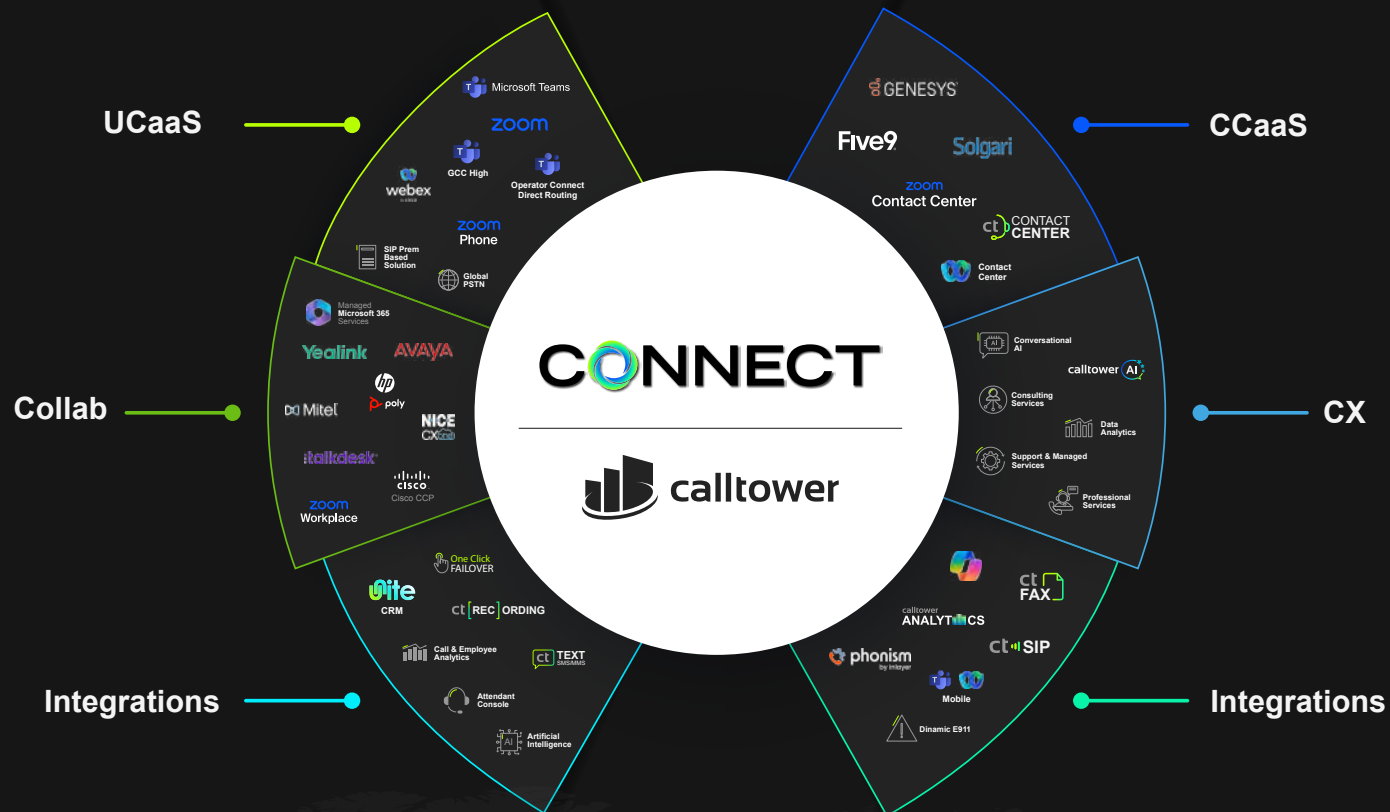

Powerful Communication Tools

CallTower Connect places powerful communication tools within an easy-to-use application. A few clicks are all it takes to customize many phone features. CallTower Connect is built from the ground up for speed and ease of use. The application is launched from a web browser by an end user or company administrator to add or manage CallTower hosted services.

Core Solutions

Combine powerful voice enablement with contact center, productivity tools and network support to unleash the full power of a modern and enterprise-grade unified communications suite. CallTower delivers comprehensive UCaaS turnkey solutions.
